

# **XP SERIES PORTABLE GENERATORS**

**Professional-grade for demanding job sites** 

### **XP SERIES GENERATORS** 3600 – 10000 WATTS

The undisputed workhorse of the portable market, Generac's professional grade XP Series portable generators are engineered specifically with contractors in mind. All models are powered by the Generac OHVI® engine, built to withstand extended job site use.

GENERAC

Fold-down, Locking Handles Provide sturdy portability, fold down for compact storage, factory installed (XP6500E,

XP8000E, XP10000E)

#### **Integrated Lifting Eye**

For easier transportation and added security on jobsites

#### Large Steel Fuel Tank with Integrated Fuel Guage

For extended run time and easy fuel tracking

### Hardened 1.25" Steel Tube Cradle and Cast Metal Corners

For rugged durability

# Easy-to-access Maintenance Points

Makes routine maintenance easier and quicker

#### **Never-flat Wheels**

For mobility on any terrain

# TRUEPOWER™ TECHNOLOGY

Delivers best-in-class power quality for confident operation of power tools, computers and more. With less than 5% total harmonic distortion, you're assured of quality and performance as smooth and consistent as utility power.

### **GENERAC OHVI® ENGINE**

#### Power for Extended Performance

All models feature Generac's OHVI engine, which utilizes the same type of pressurized oil lubrication used to give automobile engines long

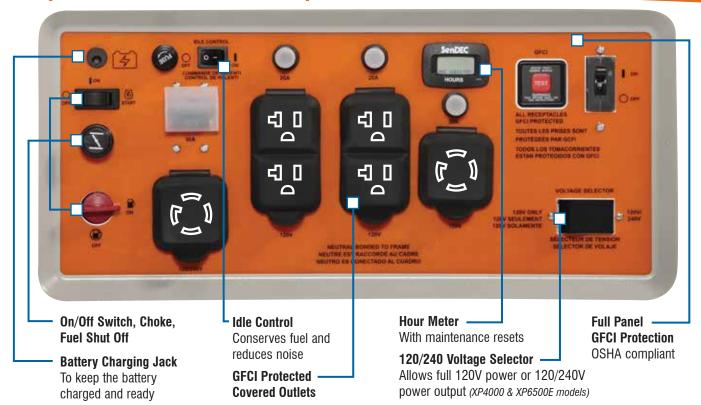

and trouble free lives and has a significantly longer life than many competitive engines – an unprecedented three to four times longer.

#### WHAT'S INCLUDED

- 3 year limited warranty
- Wheel Kit & Handles (Sold Separately on XP4000)
- Engine Oil Supply
- Owner's Manual
- · Maintenance Kit

## Easy access all-in-one control panel

### How much power do you need?

### How do you determine what size generator you need?

Sizing a portable generator is relatively easy. Check out this sample:

- Choose which devices you want to power at the same time.
- Record and add the running watts listed for each device that you need to power.
- Record the starting watts listed for each device.
- Select the one device with the highest starting watts. Add that number to the the total running watts to determine the total wattage requirement.

Device	Running Watts	Additional Starting Watts	Generator Size
Paint Sprayer	600	1200	Minimum starting
Halogen Light	1000	0	watts for your needs 
Belt Sander	1200	2400	
Air Compressor -1/2HP	1000	2000	*
Total	3800	+ 2000	5800 starting watts

### **HOME STANDBY GENERATORS**

# The Safe, Automatic Solution for Home Backup.

The power goes out and the generator goes on — whether you are home or away. It's that's simple. Install the #1 selling home standby generator from Generac and never again deal with extension cords

or refuelling in a storm. Instead, enjoy safe, automatic home protection from the inconveniences and potentially dangerous effects of power outages. There's nothing like the peace of mind a Generac automatic home standby generator can give to you and your family.

AUTOMATIC 24/7 POWER PROTECTION

#### Portable power since 1959

Since the original portable that started it all in 1959, Generac has continued to engineer advances in standby power for more than fifty years. Generac's product range now includes power solutions from RV, portable, and automatic home standby generators to backup systems for commercial and industrial applications, all backed by an extensive nationwide service network of certified dealers. Because of our ongoing commitment to quality and innovation, Generac is the name home and business owners have come to trust.

#### **Portable Parts and Service**

Generac portable generators are supported through an extensive nationwide service network that provides parts and technical support to homeowners and contractors. For a portable generator dealer near you, visit generac.com.
